## PROFESSOR LEGEND COMES TRUE IN U.S.

CINCINNATI, April 8.—(AP)—A Cincinnati University faculty member has joined the ranks of the legendary absent-minded professors because of two articles of clothing.

The professor—whose name was withheld—attended a student sale of lost and found articles. He hung his coat and hat on a rack among the "for sale" items.

A university employee happened along and liked the coat and hat, handed a student a dollar and walked off with the clothing.

The mistake was corrected later. The professor got back his coat and hat and the employee his dollar.

## 130 Said Out of Work As Coal Mine Closes

MOUNTAIN PARK, April 8.—Approximately 130 miners were thrown out of work as a result of the closing of the underground workings of the Mountain Park mine at midnight last night. The mine is operated by Luscar Coals Ltd.

Shutting down has been anticipated for the last two weeks, but yesterday afternoon miners were ordered to take out their tools and the last shift went to work at 4 p.m.

Increased costs cited as reason for closing. The cost of operating and uncertainty of the coal market is said to be the reason for closing. The mine has been producing coal for the last 10 years, along with increased taxation, both municipal and provincial, have now been offset by corresponding advances in the price of coal.

The underground mine, with an average daily output of 100 tons of steam coal, had been in operation since 1910. The mine was being operated in order to contain more than a million tons of coal.

STRIPE TO CONTINUE. Strip mine and tipple will continue to operate and furnish employment for 75 to 80 men.

Most of the miners have been with the company many years and it is presumed that many will be taken into consideration in future employment.

A number of the men own their own homes, but the majority own company houses. About 20 families including 90 children now attending school are affected. At least one room will be closed. Several families plan to remain in the present school term.

PUMPING TO CONTINUE. Pumping was out of the mine will continue for the present. Mountain Park is about 30 air miles east of Jasper.

## China President Offers Life To Stop War

NANKING, April 8.—(AP)—China's acting president, Chiang Kai-shek, today offered a "so-called war truce" if it would hasten the end of the civil war. He said that his party's war peace appeal sent to Mao Tse-tung, Communist leader at Peking.

I will accept without evasion the government's position, said the president. He said that his party's war peace appeal sent to Mao Tse-tung, Communist leader at Peking.

## Bank Bandit Shot Dead At Coast

Bank Manager And Teller Wounded During Holdup

VANCOUVER, April 8.—(CP)—A bandit was killed and a manager and teller wounded in a bank holdup in a branch of the Canadian Bank of Commerce here today.

Using a woman and a child as shield, the youthful gunman laid fire in the bank, and from the steps as he sought to escape after an alarm had been sounded.

Police report the bank manager was shot in the chest and the teller wounded in the leg.

HIT IN HEAD. The bandit was killed by traffic policeman Const. Paul, who shot the gunman from the bank at 10:40 a.m.

The bandit, not immediately identified, fired at the police officers and returned fire. The gunman was hit in the head, meeting instant death. Const. Paul was not injured.

So prompt was the alarm, that the bandit was forced to flee the bank without loot. A police officer was called to the bank by William Bishop, manager of a nearby shoe store.

GOING GUN ALARM. "A cashier returning from voting spotted the holdup man in the bank," said Bishop. "He ran into my store, shouting that the bank is being held up."

As the bandit came from the bank, he grabbed a woman to shield himself and fired at Bishop.

He then ran down the steps to the sidewalk, shooting the woman aside, but later grabbing a child as a shield.

The bank is located in a shopping centre at first avenue and commercial drive in the Grandview district.

## New Clothing Designs Give RCN New Look

OTTAWA, April 8.—(CP)—The "New Look" has hit the Navy.

Naval headquarters today announced details of new clothing designs for Canadian naval officers and ratings, to feature "improved comfort, style and practicality."

In all cases where the design is contemplated, the accent is on tailoring, to make for a snapper uniform.

**WHITE IS OUT**  
Biggest change in naval dress is the introduction, naval headquarters said, of a khaki instead of white uniform for chief petty officers, first and second class, and petty officers, first class.

It will be worn during the summer months both in Canada and in the tropics. The old-type white uniform will be worn on ceremonial occasions only.

Another major change modifies the seaman's jumper, both blue and summer white, it includes a front opening with concealed zipper closure and "bung" sleeves to provide a more tailored fit across the shoulders and chest.

**BLUE DENIM SHORTS**  
The old tropical uniform—white shorts, open-neck shirts and stock-socks—have been shot out the window. Instead, officers will wear khaki shorts and shirts. Ratings will get blue denim shorts as work dress during tropical cruises.

To give them a snapper look, the patterns of officers' khaki uniforms, now in use for several years, will be altered. Both summer and winter uniforms in the new styles will be tailored from materials especially chosen to meet "specific requirements" of each type of dress, headquarters said.

**WOOL RAYON**  
Light-weight wool rayon, a material similar to tropical worsted, will be used in making the new khaki uniforms. To be worn with khaki shirt and black tie, socks and shoes.

Officers' rank will be denoted by shoulder straps. Chief Petty Officers and petty officers will wear rating and branch badges in red.

## Big Three Near German Accord

Washington Talks Continue On Control Differences

WASHINGTON, April 8.—(AP)—The foreign ministers of Britain and France yesterday reached an "accord in principle" with State Secretary Acheson about the future of western Germany.

Foreign Minister Robert Schuman of France disclosed the development at the state department after the two diplomats had met for two hours.

**FOURTH MEETING**  
This marked the fourth time during the last few days that Foreign Secretary Bevin of Britain, Schuman and Acheson have conferred in an effort to settle their long-standing differences on how best to control Germany. Taking to reporters afterwards, Schuman said experts from the three sides have are drafting the exact wording of the broad agreement they have agreed.

**DEMANDS PARTIALLY MET**  
Schuman declined to give details but said "everything is going well, indicating that France's demands are being met at least partly." In the past, France has insisted on strong three-power control over the action of any German government with any of the three powers empowered to veto German decisions.

**FUTURE SECURITY**  
The French have refused to merge their zone of Germany into the British-American zone until this zone had been taken out of its present French's future security. Britain and the United States both have asked for giving France a free hand to review German actions but have lately indicated their willingness to reach some compromise.

## Freight Rate Study Goes On

OTTAWA, April 8.—(CP)—Transport Minister Chevier told the Commons last night the Board of Transport Commissioners is to continue its government-ordered general inquiry aimed at leveling inequalities in the freight-rate structure.

He gave this assurance after the Board had reported to him. Mr. Chevier said the board already had started its inquiry with preliminary studies and certainly intended to continue its own investigation. Presumably, it would confer with the royal commissioners so there would be no duplication.

Mr. Green declared only the board had power to vary freight rates, yet it appeared now the royal commission had "taken the ball away" and the board might not act to remove inequalities until after the royal commission reported.

That, he said, might be at the end of one or two years. The minister said he would not guess at how long the commission inquiry would take. "Meanwhile, all the discriminations will remain," said Mr. Green.

Ancient people thought emeralds sharpened the wit, conferred riches and when placed under the tongue, gave the power of prediction.

## LIBERAL SEED FALLS UPON BARE ROCKS

OTTAWA, April 8.—(BUP)—Defense Minister Brooke Claxton said yesterday that it was all an error that a Progressive Conservative member got a copy of "The Future of the Liberal Party."

Gordon Fraser (PC, Peterborough West) said he found the pamphlet in a letter mailed by Claxton and containing a copy of a speech the minister had made.

Fraser did not object to the speech but he did to the Liberal literature.

Claxton said he was sorry because "of course it served no good whatever."

## Inside Hollywood

By Bob Thomas  
NEW YORK—(AP)—Montgomery Clift is doing all right for a boy who never had a burning desire to be an actor. Even at \$250,000 a picture, he's the most sought-after star in the movie business.

How did he happen to become an actor? Purly by chance. I never had any burning desire to become a great actor. I got started when I was a kid of 12. I happened to get a stage part in a personal connection.

"Don't ask me why I kept at it. I often wonder myself. Maybe it's because the longer you keep acting, the less you want to stop. No I would never be able to work in an office from nine to five every day."

**HE'S HAPPY**  
He seemed to be fairly happy about his new-found fame. The fans don't give him much trouble, except around his Manhattan apartment.

At present, he doesn't plan to return to pictures until August, when he'll probably do "An American Tragedy" under George Stevens direction. The stage play "Naked and the Dead" is still being written by Lillian Hellman and has been postponed until the next Broadway season. Like all other things, he'll do it if he likes the script.

Why does he prefer to live in New York? "I like California, but the climate isn't conducive to work. I'd much rather play tennis or go to the beach than be working when I'm not there."

Clift has succeeded Van Johnson, Frank Sinatra and Gregory Peck as the country's No. 1 actor. It's likely he'll be replacing female favorites for a long time to come. I asked him when he would settle down and get married. "Not until I'm very, very old," he replied.

## Abdullah Foresees Greater Syria

May Be Forced By Current Situation In Middle East

The following exclusive interview with King Abdullah of Transjordan was obtained by George Phipps, British United Press correspondent, who is on an extended tour of the entire Middle East. Phipps is in Amman during the recent coup d'état in Syria and filed the first comprehensive dispatches from the Middle East on 4.—EDITOR.

By George H. Phipps

AMMAN, Transjordan, April 8.—(BUP)—King Abdullah of Transjordan predicted today that the current political situation in the Middle East may force the creation of a greater Syria combining such states as Transjordan, Syria and Iraq.

In an exclusive interview with the British United Press in his summer palace—a modest bungalow on the higher hills of this capital city—Abdullah said that "never since the cruades have such strong forces existed which are driving the Arab states into closer political and economic union."

**KING IS VIGOROUS**

The king of the Hashemite kingdom, 46, is vigorous and active in all phases of his government's activities. During the interview he wore a shiekh turban and an Arab robe.

He did not specify the political forces he believes are driving the Arabs to greater unity, but implied that the major one was the development of Palestine as a separate state.

Reports from London have consistently represented Abdullah as desiring a settlement between the Jews and the Arabs under which both could live in peace.

"Pressure and the needs of the political situation will force closer cooperation among the Arab states," he said.

I asked him about proposals for a greater Syria, combining such states as Syria, Transjordan and Iraq into one state to form an economic unit which historically has been referred to as "The Fertile Crescent."

**RESULT OF PRESSURE**  
Abdullah replied: "The political aspect of such a project comes first."

## Minister Sees Bright Future

Reconstruction Minister Winters said last night he saw no signs of a depression in Canada. He forecast a "sound recovery to look forward to in the future."

Speaking to more than 500 Ontario Liberals, he said that when the Liberal party goes to the polls within the next 18 months, it will seek re-election on "one of the best records of any government in Canada."

Of his party's prospects in the forthcoming general election, he said he could see no other party in Canada which could claim national support.

Amman's population has been doubled by the influx of Arab refugees from Palestine and is undergoing one of the biggest building booms since Roman times when it was a regional capital named Philadelphia.

## Ct. Charities Faces Six Charges Bill Passes

TORONTO, April 8.—(BUP)—The Ontario legislature yesterday gave third and final reading to a bill that will require charitable trusts and foundations to limit to 10 per cent their interest in any commercial enterprise.

The legislature voted 47 to 34 to give the bill third reading. Opposition groups had vigorously attacked the legislation since its introduction, charging that it was designed to smash the Toronto Daily Star which is owned by a charitable foundation.

Before being given final reading the bill was amended to allow charitable foundations seven years to dispose of all but 10 per cent of their interest in any business. The bill originally set a three-year time limit for disposal of the extra stock.

CFT and Liberal members attempted to amend the bill yesterday to eliminate its retroactive clause that affects the Toronto Star.

## Quebec Doctor Faces Six Charges

QUEBEC, April 8.—(CP)—Dr. Louis Joseph Lacasse yesterday was committed for trial on six charges of performing illegal operations, ever dating back to November 1947. Preliminary hearing on all charges was held in camera. The court granted Dr. Lacasse his freedoms on cash bail of \$5,000.

Daily Star. Its amendments were voted down, however, by government members.

The bill will become law today when it is given royal assent shortly before the legislature prorogues.

## Pearson Praises Pact As Cultural Force

NEW YORK, April 8.—(BUP)—Canada's external affairs minister Lester B. Pearson declared last night that the North Atlantic Security Pact is not only a defence against aggression, but is a cultural force with "enormous possibilities for good."

Pearson spoke with Ambassador Willem Marthe de Meurville of Norway and Dr. Philip C. Jessup, United States ambassador at large at a dinner of the Academy of Political Science at Hotel Astor.

The treaty protects the North Atlantic community, Pearson said, and it also gives the west an initiative in cultural, social and economic areas.

"By showing that democracy can contribute more to the dignity and well-being of the citizen than communism can ever hope to do, we are making our best ultimate contribution to the defence, 'the home defence,' against communism," Pearson said.

**FOUR HORSEMEN**

De Meurville praised the United States for sending forth "four horsemen"—UNRRA, for compassion, the United Nations for peace, the Marshall Plan for reconstruction, and the Atlantic Pact for security.

Jessup said the Atlantic pact does not threaten the security of any nation.

"For the very reason that the North Atlantic treaty is subject to and is governed by the charter of the United Nations," he said, "it cannot constitute a threat to any other state whose policies and actions are also in conformity with the subject to this charter."

**No Action Seen On Dairy Act**

OTTAWA, April 8.—(CP)—The federal government is contemplating an action to repeal the section of the Dairy Act applying to margarine, said a government spokesman yesterday.

The appeal is being made from the Supreme Court decision that existing legislation banning manufacture and sale of butter substitutes was ultra vires of parliament.

Meanwhile the return said the power to regulate and control the production and sale of margarine from the industrial standpoint "appears to lie with the provinces, and several provinces have taken action in this regard."

## Europe Promised U.S. Military Aid

### Britain Among Nations Asking Atlantic Pact Help

WASHINGTON, April 8.—(AP)—Eight European members of the North Atlantic Alliance urged apparently to the United States today for help in rearming. They were told in an official reply that a military aid program is being prepared for presentation to congress.

In a separate statement, State Secretary Acheson declared that the European requests and his government's response "in no sense represents a price tag to be placed upon the (Atlantic) Pact."

Rather, "they are consistent with the spirit of the pact" which provides for self-help and mutual aid in American interest.

He added that the decision of the United States government to provide arms and equipment "to free and friendly nations is to the highest interest of the American people."

The requests came from the five Brussels-treaty countries acting as a group—Belgium, France, Britain, The Netherlands and Luxembourg—and from Italy, Denmark, and Norway.

In each case, the European allies said and substantially the same thing—that none of the countries acting alone can provide an adequate armament for its own defence and for its part in the Atlantic defence effort.

The program is expected to call for around \$1,200,000,000 worth of military supplies and equipment over a period of 12 months.

Each of the countries promised to provide in return such help as it is capable of in the general interest of the defence of the whole Atlantic area.

## ABBOTT PHISOGUE IN FOCUS

OTTAWA, April 8.—(CP)—At least one member of the audience enjoyed the national Film Board's screening of the opening of parliament last January. Reporting in the Commons in criticism of the film by G. K. Fraser (PC, Peterborough West) finance minister Abbott said he thought it was a "wonderful job."

"Well, they must have had the minister's face in focus," cracked Mr. Fraser, "because they didn't have anything else in focus."

**CBC Is Urged To Broadcast On Citizenship**

OTTAWA, April 8.—(CP)—Mrs. Gladys Strum suggested yesterday in the Commons the CBC replace some of the "brain-soothing soap programs" with some broadcasts on citizenship.

She said a little citizenship would not hurt the household and would add new citizens to the country. The CBC also urged that the CBC put on more citizenship broadcasts.

Resources Minister Gibbs said

NEW YORK, April 8.—(AP)—Martin Krouse, a 250-pound singing teacher who likes penny chocolate, dropped a penny in a subway vending machine and pulled the lever. Nothing happened.

In fact, nothing happened 46 times during an eight-month period. It was most distressing for Krouse since like these penny chocolate, he says.

## MORE and SAFER MILEAGE SUMS UP REASONS WHY

**3 out of 5 SWITCHED TO B.F. Goodrich**  
FROM SOME OTHER BRAND

FROM COAST TO COAST, an independent research organization interviewed Canadian motorists who bought B.F. Goodrich tires in the past year. Three out of five had switched to B.F. Goodrich from some other brand!

The reasons? Only B.F. Goodrich can give you longer mileage . . . smoother riding . . . extra blowout protection . . . PLUS FREEDOM FROM PUNCTURES!

### RESEARCH KEEPS B.F. GOODRICH FIRST IN RUBBER

The extra protection and longer wear you get from B.F. Goodrich tires results from long and costly research in the multi-million-dollar B.F. Goodrich rubber research centre.

Research produced the B.F. Goodrich Sealomatic safety tube that seals punctures instantly . . . permanently . . . as you ride! Research developed the conerunning, wear-resisting rubber compounds . . . the tougher cords . . . the improved body and tread design . . . that makes B.F. Goodrich Silverstone tires so much superior in performance and value.

Enjoy all the money-saving, trouble-saving results of B.F. Goodrich research. Switch to B.F. Goodrich and ride safer . . . at lower long-range cost. See your B.F. Goodrich dealer today! (Consult the yellow pages of your phone book.)

**ONLY B.F. Goodrich GIVES FREEDOM FROM PUNCTURES**

MANUFACTURERS, TOO, CHOOSE B.F. GOODRICH If your new car, truck or tractor is equipped with B.F. Goodrich tires, take advantage of your dealer's free tire inspection service. This will ensure you of getting the long, trouble-free mileage built into all B.F. Goodrich tires.

### All Smiles As Pages Win Crown

**JUBILANT BUNCH** of lookyists are these members of Pages, who won the city intermediate B title by shaming Meltons 7-6 after two overtime periods last night. The good-looking crew with hands on the city is Keith Barry who scored the winning tally. That's Joe Mann, director of the loop, on the lower right, while acting-coach Ray Henderson is over him.

## Pages Shade Meltons To Cop Intermediate Title

Where there's a will, there's a way and Pages certainly found that way last night in the arena as they squeaked out a 7-6 overtime victory over Meltons to capture the city intermediate B hockey league championship.

It was but the second test in Edmonton for Meltons this season, the other coming in the first game of their final against the Page sextet when they dropped a 5-4 nod. Then they had bounced back to knock the series with an 8-3 victory.

They should have picked up the marbles last night but for an ineptible lapse on the part of Lou Wartime, consistent goalgetter all season long.

The game was like a second, and sudden-death, overtime period when Wartime had no one to rely on. He was alone when he fired past the keeper, but the shot was blocked. Then, in the next minute, Keith Barry scored to give Pages a 6-5 lead. That's when the game got really hot. Pages, however, made no mistake on their next sortie into enemy territory and Keith Barry scored again to give Pages a 7-5 lead. That's when the game got really hot. Pages, however, made no mistake on their next sortie into enemy territory and Keith Barry scored again to give Pages a 7-5 lead.

The game started off at a fast clip with Pages drawing first blood as Harry Peich counted three times in the first period. Then, in the second period, Pages drew the score and set a pattern that held true until the end of the contest. Pages, however, made no mistake on their next sortie into enemy territory and Keith Barry scored again to give Pages a 7-5 lead.

**FLORAL SETTING** in Erskine United Church provided the background recently for the wedding of Barbara Verna Neuenham and Matthew Seaton. The bride is the daughter of Mr. and Mrs. J. H. Neuenham.

**METROPOLITAN** United church was the scene of a pretty wedding recently, when Joan Kathleen Shultz became the bride of Donald Melvin Smith. Rev. R. McElroy Thompson performed the ceremony for the daughter of Mr. and Mrs. L. M. Shultz, of Edmonton, and the son of Mr. and Mrs. E. L. Smith of Calgary.
